

STAFFORD COUNTY SCHOOL BOARD

Agenda Consideration

TOPIC: Proposed 2006-2008 Elementary School Attendance Zones

ITEM NO: 9B

PREPARED BY: Denise Fruik
Supervisor of Planning

MEETING: January 24, 2006
ACTION DATE: January 24, 2006

Scott Horan
Executive Director
Planning & Construction

Andre' A. Nougaret
Assistant Superintendent for
Support Services

ACTION REQUESTED BY THE SUPERINTENDENT: That the School Board approve the proposed elementary school attendance zone recommendation for 2006 and the suggested attendance zones for 2007 and 2008 as provided to the Superintendent by the Elementary School Redistricting Committee.

KEY POINTS:

- ◆ Per School Board Policy 7-12, an Elementary School Redistricting Committee has been established and has met from October through November 2005 in an effort to reach a consensus on proposed elementary school attendance zones for the 2006 school year. The Elementary School Redistricting Committee has also suggested attendance zones for 2007 and 2008 as requested in the committee charge approved by the School Board on June 21, 2005 (Agenda Item 9C).
- ◆ The Redistricting Committee includes one teacher and one parent from each of eight existing elementary schools: Widewater, Moncure, Hampton Oaks, Winding Creek, Stafford, Falmouth, Hartwood and Rocky Run. These schools were considered to be the most likely to be affected by redistricting. Other elementary schools were informed if proposed recommendations impacted them. The committee also included two representatives of the Planning and Construction Department, the Chairman of the Citizens' Advisory Committee on Long Range Planning and members of the SCPS Transportation Department.
- ◆ The **primary** goals in establishing a new attendance zone are the five guidelines included in Policy 7-12 and the redistricting charge approved by the School Board on June 21, 2005 (Agenda Item 13C):
 - A) Location
 - B) Balance
 - C) Minimum Disruption
 - D) Subdivision Integrity
 - E) Feeder Patterns
- ◆ The process of arriving at a recommended redistricting proposal took place in a highly interactive effort whereby School Board staff presented an initial option at the committee's first meeting. The purpose of this initial option was to generate committee discussion and to have the committee begin focusing on their goals and objectives

relative to countywide geography inclusive of current attendance zones, current student enrollments, projected student enrollments, current and projected subdivision growth, transportation corridors, existing facility locations and potential future facility locations. Giving credence to all considerations and factors, the committee, at subsequent meetings analyzed each option carefully. As a result, each meeting included staff bringing back one or two options from the previous meeting, inclusive of requested pertinent information being factored into the committee's preferred options from previous meetings.

The committee considered seven different options, eventually focusing on two preferred scenarios that became the final recommended redistricting options for 2006 and suggested redistricting options for 2007 and 2008.

- ◆ The committee was in agreement on both of the new 2006 Elementary and 2008 Elementary attendance zones as well as several concurrent moves (description of recommendation attached). The committee was unable to reach a decision between two options regarding concurrent moves to relieve Hartwood Elementary in 2006. The committee is providing Option A and Option B to the School Board.
- ◆ Option A would move students in England Run North Apartments from Hartwood to Falmouth, as already approved by previous School Board redistricting action, for the 2006 and 2007 school years and move approx. 90 students from Holly Corner Rd. east into Rocky Run in 2008. The England Run North Apartment students would then move into Elementary 2008 when the school opens. Option B would move a group of students in the far western area of the county in 2006 from Hartwood to Margaret Brent indefinitely with the students from Holly Corner Rd. east remaining at Hartwood.
- ◆ The committee cast one vote per school. There was unanimous support for the basic recommended moves for 2006 and 2008. (The recommendation does not propose any 2007 moves.) The committee decided that only the schools potentially affected under Option A or Option B should vote for their preference between options. These schools included Hartwood, Rocky Run, Falmouth and Margaret Brent. Margaret Brent Elementary, although not represented throughout the entire committee process, was consulted for a vote between option A and B. Option B would increase enrollments at the school by approximately 85 students. Margaret Brent would not be affected under Option A. Brent, Rocky Run and Hartwood voted in favor of Option A. Falmouth voted for Option B. Staff did not vote; however, the Pupil Transportation Department staff prefers Option B. Correspondence was sent to all committee members not in attendance at the final meeting and all elementary school Principals soliciting dissenting opinions if any existed.
- ◆ Additionally, the committee recommended that students affected in a final redistricting action by the School Board follow the transfer policy as currently defined in Policy and Regulation 7-13.
- ◆ Public Hearings have been scheduled for the Elementary School Redistricting as follows:

January 12, 2006 – Stafford Elementary School

January 17, 2006 – Moncure Elementary School

January 19, 2005 – Falmouth Elementary School

A work session was held on January 4, 2006.

- ◆ The same publicity plan followed in the Middle School Redistricting will be implemented as part of the Elementary School Redistricting. A flyer informing residents of the redistricting and proposed public hearing schedule will be sent home with elementary school students prior to the first public hearing on January 12, 2006. Another flyer will be sent home prior to the second and third scheduled hearings. The redistricting recommendation has been posted to the Stafford County Schools website and distributed to all elementary schools. Notice of the redistricting will also be included in school newsletters and the public hearing schedule announcement will be sent to the newspaper.
- ◆ Information requested by the School Board subsequent to any School Board meetings, work sessions or public hearings is attached.

SCHOOL BOARD GOAL: #4 – Address the impact of continuing population growth by developing plans to address expanding staff, facilities, transportation, attendance zones and instruction

#5 – Provide facilities that promote student learning and and community support.

2010 RESULTS:

1. Still have six schools over capacity again by 2010.
2. Hampton Oaks is 27 more over capacity than original recommendation while Winding Creek exceeds capacity by 115 less than in original recommendation.
3. Widewater and Moncure projections vary in 2006 and 2008 with Widewater almost nearing its historic high in 2007; however, there is no impact on 2008-2010.
4. Park Ridge enrollments increase by approx. 100 but the school remains under capacity.
